

# CAPTURE VIDEO issue in avse.c

---

reason : video driver can't CAPTURE VIDEO SUCCESS

how to fix

in source\adviser-2.82.0-src\data\avse.c

keyword : cap\_status != CAPTURE\_VIDEO\_SUCCESS

add

```
if (cap_status != CAPTURE_VIDEO_SUCCESS)
{
    is_qlzw_init = TRUE;
    if(g_corefeatures.vdd_power_check_get_video)
    {
        nanosleep(&sleep, NULL);
    }
    if (cap_status == CAPTURE_VIDEO_NO_SIGNAL) {
        //Garfield Chien fix kvm reboot black sereen
        start_capture();
        //Garfield Chien 2020/07/31 End
    }
    continue;
}
```

source\adviser\_dev-2.19.0-src\data\video\_interface.h

add

```
int start_capture(void);
```
