

# VSCode Text editor

---

推薦以下text editor, support Windows/Linux, 寫BIOS/BMC都可用.  
免費且不斷更新.  
Open folder後, Go to file (Ctrl-P) 及Find in files都相當快.

在ubuntu寫BMC需要root權限, login root後, 可用附件的script執行 (home路徑要改)

```
#!/bin/bash -x  
code --user-data-dir="/home/jeff/.vscode" --extensions-dir="/home/jeff/.vscode/extensi
```

<https://code.visualstudio.com/> (<https://code.visualstudio.com/>)

## NOTE:

它的Tag Parser資料庫會放在

Linux: /home/user/.vscode/User/workspaceStorage

Windows: %USERPROFILE%\AppData\Roaming\Code\User\workspaceStorage

久了會變成很大, 舊的用不到的必須自己清掉, 整個目錄殺掉也可以.
